Thunder Energies Corporation Announces Association with Born2Invest

Tarpon Springs, FL Dr. Ruggero M. Santilli, CEO of Thunder Energies Corporation (<http://www.thunder-energies.com>), announces that the Company has entered into an agreement with Born2Invest (<http://www.born2invest.com>). Born2Invest provides a team of seasoned writers and business reporters who regularly provide in-depth coverage and stories from various industries, such as investing, alternative markets, and more. A provider with global reach, Born2Invest services will soon extend to 50+ languages and 120+countries.

The association with Born2Invest will create global awareness of and interest in the company's revolutionary design telescope that uses concave lenses for the detection of antimatter in space. Born2Invest information services will also communicate significant developments in Thunder Energies Corporation's Division of Nuclear Equipment and Division of Combustion Equipment.

Dr. Santilli said, "I am very pleased to report that the progress being achieved by our Optical Division is continually being reported by Born2Invest. In the past few weeks, nine different articles relating to our telescope have been published over the Internet by Born2Invest authors." The topics covered are too many to be mentioned here, but here are the links are available at the end of this article.

Dr. W. George Gaines, President and COO, said, "The mission of the Division of Optical Equipment of Thunder Energies Corporation is to bring to market our revolutionary Santilli Telescope. Although it might at first seem counter-intuitive, our specially designed concave lens can pull back the curtain of the sky, thus enabling amateur and professional astronomers to detect, for the first time, new antimatter galaxies." Dr. Gaines added, "The thrill of discovery has always been the fuel that drives astronomers, and with the Santilli Telescope, that thrill may now be shared by many due to this telescope's unique design."
