## **Thunder Energies Corporation Announces Association with Uptick**

New York, NY. Dr. Ruggero M. Santilli, CEO of Thunder Energies Corporation (<http://www.thunder-energies.com>), announces that the Company has entered into an agreement with Uptick (<http://www.upticknewswire.com>), a business information service that provides press release distribution, public relations, digital marketing and media, news wire, and related services. This association will create awareness and interest in the company's revolutionary design telescope that uses concave lenses for the detection of antimatter in space. This momentum will serve to advance development in the Divisions of Nuclear and Combustion Equipment.

Dr. Santilli said, "I am very pleased to report that the progress being achieved by our Optical Division is continually being reported by Uptick Newswire. Here is just one example of their fine reporting: <http://upticknewswire.com/thunder-energies-corporation-announces-the-production-and-sale-of-revolutionary-telescopes-searching-for-antimatter-galaxies/>" Only recently Dr. Santilli was interviewed by Stu Taylor, syndicated business radio talk show host of On Business which airs on Radio America Network & Biz Talk Radio Network. This interview was also featured on Uptick Newswire. Here is the link to the interview: Stu\_Seg 3\_7.21.15.mp3.

Dr. W. George Gaines, President and COO, said, "The mission of the Division of Optical Equipment of Thunder Energies Corporation is to bring to market our revolutionary Santilli Telescope. Although it might at first seem counter-intuitive, our specially designed concave lens can pull back the curtain of the sky, thus enabling amateur and professional astronomers to detect, for the first time, new antimatter galaxies." Dr. Gaines added, "The thrill of discovery has always been the fuel that drives astronomers, and with the Santilli Telescope, that thrill may now be shared by many due to this telescope's unique design." ### Forward Looking Statements

Certain statements in this news release may contain forward-looking information within the meaning of Rule 175 under the Securities Act of 1933 and Rule 3b-6 under the Securities Exchange Act of 1934, and are subject to the safe harbor created by those rules. All statements, other than statements of fact, included in this release, including, without limitation, statements regarding potential future plans and objectives of the company, are forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Technical complications, which may arise, could prevent the prompt implementation of any strategically significant plan(s) outlined above. The Company undertakes no duty to revise or update any forward-looking statements to reflect events or circumstances after the date of this release.
